DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 1-36 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention.

240
4/16/02

Regarding claims 1, 4 and 13, they recite "a same communication frequency is not permitted in adjoining radio zones". However, they recite in the ^{next} sentence "different time slots are allocated for communications at a same communication frequency in adjoining radio zones" (communication at a same communication frequency in adjoining radio zones is permitted). Therefore, these two sentences are conflict.

Conclusion

3. The prior art made of record and not relied upon is consider pertinent to applicant's disclosure.
